Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

THE UNIVERSITY PRESS, NOTRE DAME, INDIANA

NOTE

Contributions on general and midland natural history will be gladly received. Papers on botany and allied subjects, zoology, geology and physical geography, should be addressed to the editor.

Matters relating to advertisements are to be taken up with the secretary of the University.

One hundred reprints of articles averaging eight pages or more will be furnished *free of charge* to contributors. More than one hundred separates can be obtained at cost price of the extras. When articles consist of less than eight pages, a certain number of copies of THE AMERICAN MIDLAND NATURALIST in which the paper appeared will be supplied free, or the separate articles may, by arrangement with the editor, be kept until future papers average eight pages, provided the contributions are sent in for the next consecutive issue for publication. Contributors of articles will receive a free subscription for the year in which their paper appears. For further or other information address

THE EDITOR, Notre Dame, Indiana.

Subscribers that do not receive their copies regularly because of loss in mails, etc., should enquire about having such replaced before the expiration of the same month in which THE MIDLAND NATURALIST appears. *The date of publication is the 15th day bi-monthly.* The numbers preceding the summer vacation may be anticipated.
